P. Sankaran  
**Faculty in charge**

Anil Neerukonda Institute of Dental Sciences  
Sangivalasa, Bheemunipatnam Mandal,  
Visakhapatnam - 531162

**Village adoption dental screening and treatment camp**

**Date : 05.07.2016**

**Venue : Pandranki**

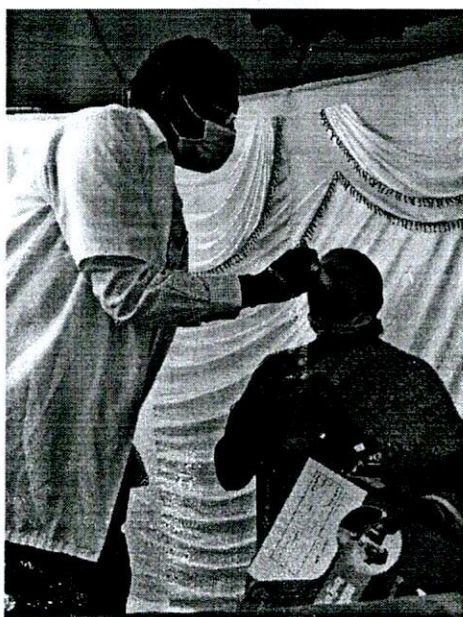

**Faculty: Dr.Manish, Dr.Sivakuamr**

**Organising agency: Gram Panchayat**

**Number of students attended: 12**

**SUMMARY:**

Many of oral health problems are preventable and we all are well versed with the quote 'prevention is better than cure'. Lack of oral health literacy is the main reason for underutilization of the dental care facilities. So in order to increase the oral health knowledge, an awareness camp was conducted by the Department of Public health Dentistry, Anil Neerukonda Institute of Dental Sciences. Oral health education was given with main focus on ill effects of tobacco. Individuals were examined and oral hygiene instructions were given accordingly. About 60 patients were screened and referred to the hospital for the treatment. There was a good response from the villagers and they appreciated the team for their services. The students who participated in the camp were happy for their work and got motivated.

**Household survey and dental camp**

**Date : 31.08.2016**

**Venue : Nathavalasa**

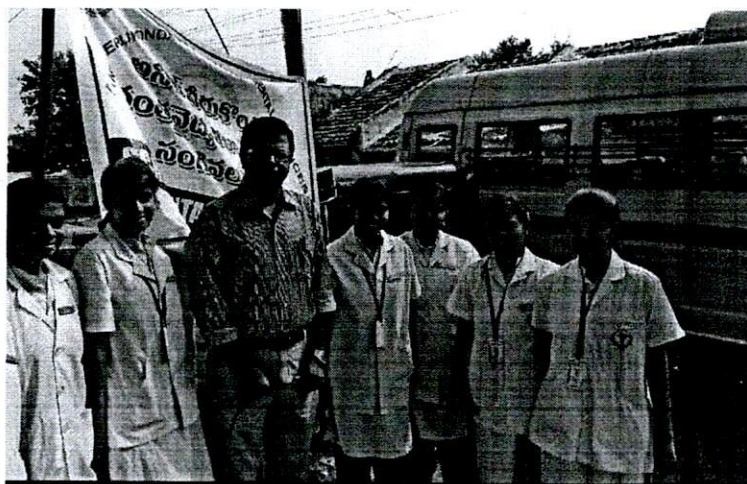

**Faculty: Dr. Siva, Dr. Manish**

**Organising agency: Gram Panchyat**

**Number of students attended: 16**

**SUMMARY:**

Many of oral health problems are preventable and we all are well versed with the quote 'prevention is better than cure'. Lack of oral health literacy is the main reason for underutilization of the dental care facilities. So in order to increase the oral health knowledge, a household survey was conducted by the Department of Public health Dentistry, Anil Neerukonda Institute of Dental Sciences. Oral health education was given with main focus on ill effects of tobacco. Individuals were examined and oral hygiene instructions were given accordingly. About 100 houses were screened, patients were given a health talk and referred to the hospital for the treatment. There was a good response from the villagers and they appreciated the team for their services. The students who participated in the camp were happy for their work and got motivated.

**Oral health awareness and screening and treatment camp**

**Date : 27.09.2016**

**Venue : Vizianagaram**

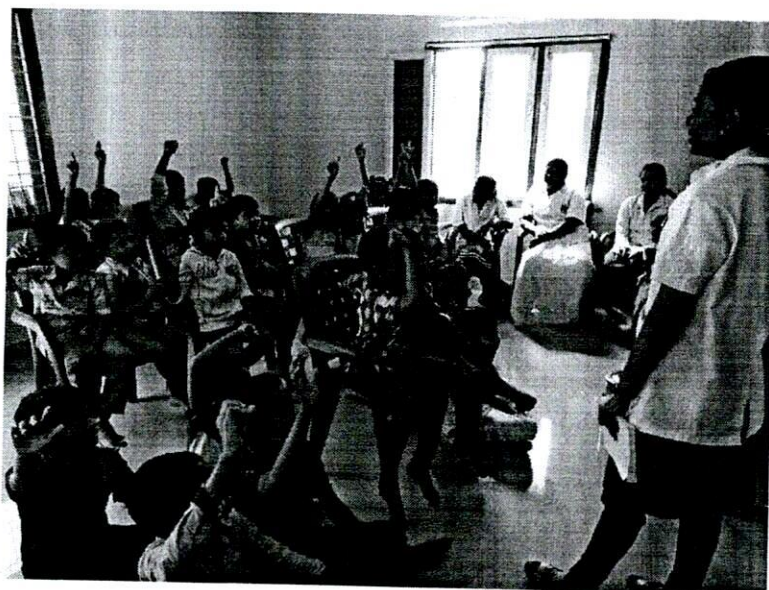

**Faculty: Dr. Siva, Dr. Manish**

**Organising agency: Baptist Memorial Church**

**Number of students attended: 12**

**SUMMARY:**

Many of oral health problems are preventable and we all are well versed with the quote 'prevention is better than cure'. Lack of oral health literacy is the main reason for underutilization of the dental care facilities. So in order to increase the oral health knowledge, an awareness camp was conducted by the Department of Public health Dentistry, Anil Neerukonda Institute of Dental Sciences. Individuals were examined and oral hygiene instructions were given accordingly. Patients were given a health talk and referred to the hospital for the treatment. There was a good response from the church and they appreciated the team for their services. The students who participated in the camp were happy for their work and got motivated.

**Awareness on sanitation and dental camp**

**Date: 11.11.2016**

**Venue : Kandivalasa**

**Faculty: Dr. Srinivas, Dr. Naidu**

**Organising agency: Village Panchayat**

**Number of students attended: 18**

**SUMMARY:**

Clean environment is an important asset for the general health of an individual. So in order to increase this, an awareness camp was conducted by the Department of Public health Dentistry, Anil Neerukonda Institute of Dental Sciences. Individuals volunteered in this program and a session on the importance of sanitation was given. Patients were examined and oral hygiene instructions were given accordingly. A total of 90 patients were screened. Patients were given a health talk and referred to the hospital for the treatment. There was a good response from the village and they appreciated the team for their services. The students who participated in the camp were happy for their work and got motivated.

Sangivalasa, Bheemunipatnam Mandal,  
Visakhapatnam – 531162

**Health education and Dental Camp**

**Date: 22.12.2016**

**Venue : Vellanki**

**Faculty: Dr.Manish, Dr,Siva**

**Organising agency: Gram Panchayat**

**Number of students attended: 15**

**SUMMARY:**

Many of oral health problems are preventable and we all are well versed with the quote 'prevention is better than cure'. Lack of oral health literacy is the main reason for underutilization of the dental care facilities. So in order to increase the oral health knowledge, an awareness camp was conducted by the Department of Public health Dentistry, Anil Neerukonda Institute of Dental Sciences. Oral health education was given with main focus on ill effects of tobacco. Individuals were examined and oral hygiene instructions were given accordingly. About 150 patients were screened and referred to the hospital for the treatment. There was a good response from the villagers and they appreciated the team for their services. The students who participated in the camp were happy for their work and got motivated.

**Women's day and screening camp**

**Date: 07.03.2017**

**Venue: Thatotooru**

**Faculty: Dr. Manish, Dr. Siva**

**Organising agency: Anganwadi Kendram**

**Number of students attended: 12**

**SUMMARY:**

Women stand at the front lines of the COVID-19 crisis, as health care workers, caregivers, innovators, community organizers and as some of the most exemplary and effective national leaders. The crisis has highlighted both the centrality of their contributions and the disproportionate burdens that women carry. So in order to increase this awareness camp was conducted by the Department of Public health Dentistry, Anil Neerukonda Institute of Dental Sciences. Oral health education was given. Individuals were examined and oral hygiene instructions were given accordingly. About 120 patients were screened and referred to the hospital for the treatment. There was a good response from the staff and they appreciated the team for their services. The students who participated in the camp were happy for their work and got motivated.

**Sanitation awareness and dental screening camp**

**Date:** 15.04.2017

**Venue:** Neeruluvalasa

**Faculty:** Dr.Siva, Dr.Srinivas

**Organising agency:** Village Panchayat

**Number of students attended:** 15

**SUMMARY:**

Using good sanitation and hygiene practices is one of the **most effective means of reducing the spread of diarrheal diseases**, which are the leading cause of death among children under five. ... Encouraging individuals and communities to adopt good sanitation and hygiene practices is one of the key factors for development. So in order to increase this awareness camp was conducted by the Department of Public health Dentistry, Anil Neerukonda Institute of Dental Sciences. Oral health education was given with main focus on sanitation. Individuals were examined and oral hygiene instructions were given accordingly. About 150 patients were screened and referred to the hospital for the treatment. There was a good response from the villagers and they appreciated the team for their services. The students who participated in the camp were happy for their work and got motivated.
