Awareness on menstrual hygiene and dental camp

Date: 13.07.2018

Venue: Kondapeta

Faculty: Dr.Sushanti, Dr.Srinivas

Organising agency: GVMC high school

Number of students attended: 13

SUMMARY:

Many of oral health problems are preventable and we all are well versed with the quote 'prevention is better than cure' so is the importance of menstrual hygiene. So in order to increase this awareness camp was conducted by government high school. Oral health education was given with main focus on awareness on cancer and its relation with tobacco. Individuals were examined and oral hygiene instructions were given accordingly. About 100 patients were screened and referred to the hospital for the treatment. There was a good response from the staff and they appreciated the team for their services. The students who participated in the camp were happy for their work and got motivated.

Awareness on hepatitis and dental camp

Date: 30.07.2018

Venue: Kancherpalem

Faculty: Dr. Vineela

Organising agency: Gowri Seva Sangham

Number of students attended: 14

SUMMARY:

This year's theme is “**Hepatitis can't wait**”, conveying the urgency of efforts needed to eliminate hepatitis as a public health threat by 2030. With a person dying every 30 seconds from hepatitis related illness – even in the current COVID-19 crisis – we can't wait to act on viral hepatitis. So in order to increase the oral health knowledge, an awareness camp was conducted by the Department of Public health Dentistry, Anil Neerukonda Institute of Dental Sciences. Oral health education was given with main focus on hepatitis. Individuals were examined and oral hygiene instructions were given accordingly. About 80 patients were screened and referred to the hospital for the treatment. There was a good response from the staff and they appreciated the team for their services. The students who participated in the camp were happy for their work and got motivated.

Awareness on importance of breast feeding and dental camp

Date: 02.08.2018

Venue: Anandavaram, Padmanbham

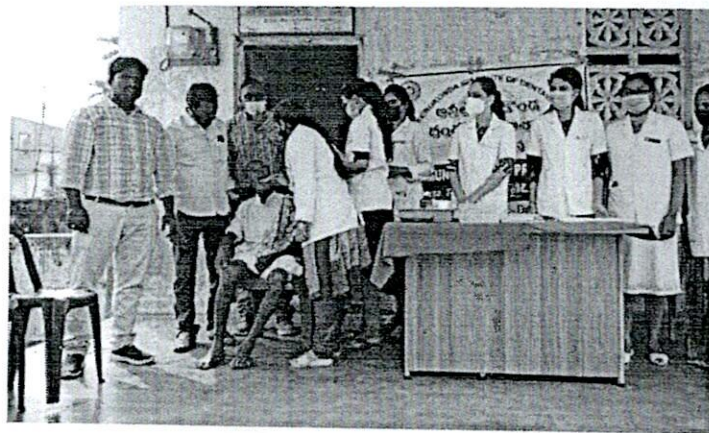

Faculty: Dr. Nagarjuna, Dr. Sushanti

Organising agency: ZPH School

Number of students attended: 12

SUMMARY:

Protecting, promoting and supporting breastfeeding will save more lives of babies and children than any other single preventive intervention. Globally, exclusive and continued breastfeeding could help prevent 13% of deaths among children under five years old. So in order to increase the oral health knowledge, an awareness camp was conducted by the Department of Public health Dentistry, Anil Neerukonda Institute of Dental Sciences. Oral health education was given with main focus on breastfeeding. Individuals were examined and oral hygiene instructions were given accordingly. About 90 patients were screened and referred to the hospital for the treatment. There was a good response from the villagers and they appreciated the team for their services. The students who participated in the camp were happy for their work and got motivated.

Oral health awareness and screening camp

Date: 18.08.2018

Venue: Staff quarters

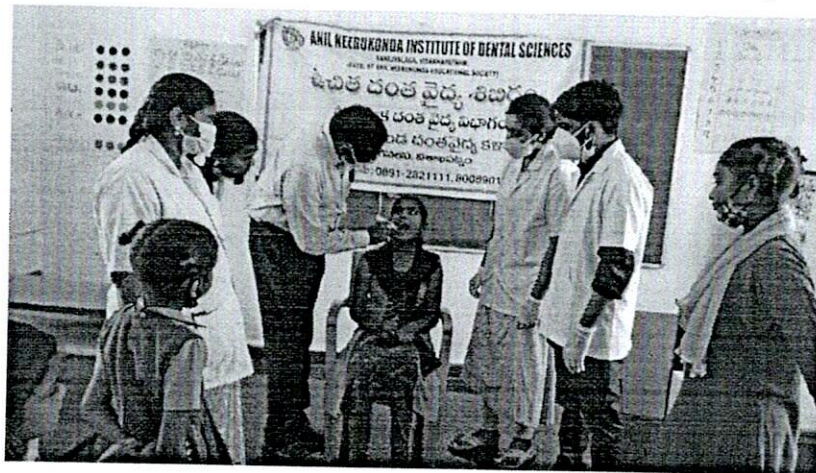

Faculty: Dr.Nagarjuna, Dr.Sushanti

Organising agency: Anil Neerukonda Hospital

Number of students attended: 16

SUMMARY:

Many of oral health problems are preventable and we all are well versed with the quote 'prevention is better than cure'. Lack of oral health literacy is the main reason for underutilization of the dental care facilities. So in order to increase the oral health knowledge, an awareness camp was conducted by the Department of Public health Dentistry, Anil Neerukonda Institute of Dental Sciences. Oral health education was given with main focus on ill effects of tobacco. Individuals were examined and oral hygiene instructions were given accordingly. About 90 patients were screened and referred to the hospital for the treatment. There was a good response from the villagers and they appreciated the team for their services. School oral health program and dental camp

Date: 04.09.2018

Venue: Thallavalasa school

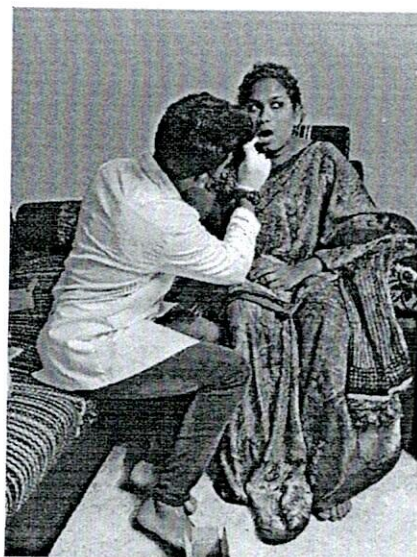

Faculty: Dr.Vineela

Organising agency: MPP School

Number of students attended: 15

SUMMARY:

Many of oral health problems are preventable and we all are well versed with the quote 'prevention is better than cure'. Lack of oral health literacy is the main reason for underutilization of the dental care facilities. So in order to increase the oral health knowledge, an awareness camp was conducted by the Department of Public health Dentistry, Anil Neerukonda Institute of Dental Sciences. Oral health education was given with main focus on brushing techniques. Individuals were examined and oral hygiene instructions were given accordingly. About 90 patients were screened and referred to the hospital for the treatment. There was a good response from the villagers and they appreciated the team for their services. The students who participated in the camp were happy for their work and got motivated.

Stress and oral health and dental camp

Date: 09.10.2018

Venue: Nellimarla

Faculty: Dr. Manish, Dr. Siva

Organising agency: ZPH School

Number of students attended: 15

SUMMARY:

Being aware when we're experiencing stress – or recognising when it's affecting someone around us – is important, as it's the first step towards feeling better. So in order to increase the oral health knowledge, an awareness camp was conducted by the Department of Public health Dentistry, Anil Neerukonda Institute of Dental Sciences. Oral health education was given with special focus on stress. Individuals were examined and oral hygiene instructions were given accordingly. About 100 patients were screened and referred to the hospital for the treatment. There was a good response from the villagers and they appreciated the team for their services. The students who participated in the camp were happy for their work and got motivated.

ill effects of antibiotic over usage and dental camp

Date: 13.11.2018

Venue: Dharampuri

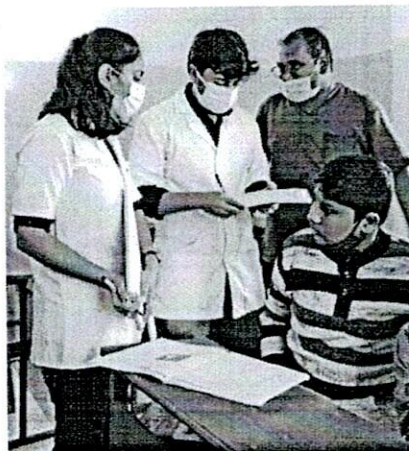

Faculty: Dr. Sushanti, Dr. Nagarjuna

Organising agency: Gram Panchayat

Number of students attended: 18

SUMMARY:

Antibiotics are medicines used to prevent and treat bacterial infections. Antibiotic resistance occurs when bacteria change in response to the use of these medicines. Bacteria, not humans or animals, become antibiotic-resistant. These bacteria may infect humans and animals, and the infections they cause are harder to treat than those caused by non-resistant bacteria. So in order to increase the oral health knowledge, an awareness camp was conducted by the Department of Public health Dentistry, Anil Neerukonda Institute of Dental Sciences. Oral health education was given with special focus on antibiotics. Individuals were examined and oral hygiene instructions were given accordingly. About 150 patients were screened and referred to the hospital for the treatment. There was a good response from the villagers and they appreciated the team for their services. The students who participated in the camp were happy for their work and got motivated.

prevention against women violence and dental camp

Date: 24.11.2018

Venue: Thatituru

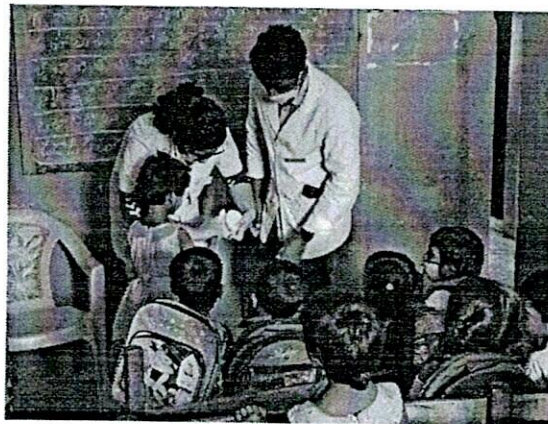

Faculty: Dr.Vineela, Dr.Srinivas

Organising agency: Village Panchayat

Number of students attended: 12

SUMMARY:

Nearly 1 in 3 women have been abused in their lifetime. In times of crises, the numbers rise, as seen during the COVID-19 pandemic and recent humanitarian crises, conflicts and climate disasters. So in order to increase the oral health knowledge, an awareness camp was conducted by the Department of Public health Dentistry, Anil Neerukonda Institute of Dental Sciences. Oral health education was given with special focus on women empowerment. Individuals were examined and oral hygiene instructions were given accordingly. About 150 patients were screened and referred to the hospital for the treatment. There was a good response from the villagers and they appreciated the team for their services. The students who participated in the camp were happy for their work and got motivated.

SUMMARY:

Many of oral health problems are preventable and we all are well versed with the quote 'prevention is better than cure'. Lack of oral health literacy is the main reason for underutilization of the dental care facilities. So in order to increase the oral health knowledge, an awareness camp was conducted by Lions club. Oral health education was given with main focus on brushing techniques. Individuals were examined and oral hygiene instructions were given accordingly. About 100 patients were screened and referred to the hospital for the treatment. There was a good response from the staff and they appreciated the team for their services. The students who participated in the camp were happy for their work and got motivated.

World youth day & dental camp

Date: 11.01.2019

Venue: Bodduru

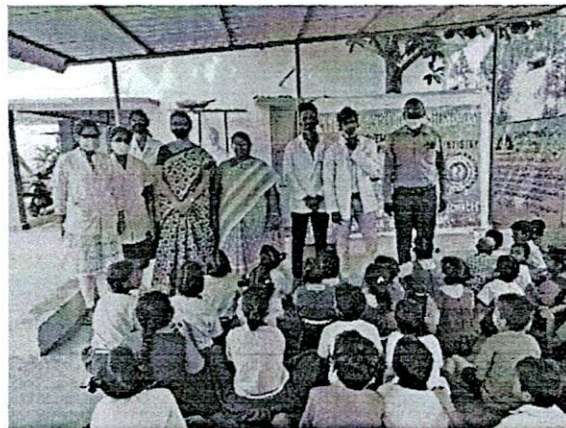

Faculty: Dr. Vineela, Dr. Srinivas

Organising agency: Village Pachayat

Number of students attended: 17

SUMMARY:

The theme of International Youth Day 2019, "Transforming Food Systems: Youth Innovation for Human and Planetary Health", highlights the success of such a global effort will not be achieved without the meaningful participation of young people. So in order to increase the oral health knowledge, an awareness camp was conducted by Anil Neerukonda Institute of Dental Sciences. Oral health education was given with main focus on brushing techniques. Individuals were examined and oral hygiene instructions were given accordingly. About 90 patients were screened and referred to the hospital for the treatment. There was a good response from the staff and they appreciated the team for their services. The students who participated in the camp were happy for their work and got motivated.

World leprosy day and dental camp

Date: 30.01.2019

Venue: Poram

Faculty: Dr.Nagarjuna, Dr.Yashwant

Organising agency: Gram Panchayat

Number of students attended: 16

SUMMARY:

World Leprosy Day (WLD) is celebrated on 30 January. This international day is an opportunity to celebrate people who have experienced leprosy, raise awareness of the disease, and call for an end to leprosy-related stigma and discrimination. So in order to increase the oral health knowledge, an awareness camp was conducted by Anil Neerukonda Institute of Dental Sciences. Oral health education was given. Individuals were examined and oral hygiene instructions were given accordingly. About 90 patients were screened and referred to the hospital for the treatment. There was a good response from the staff and they appreciated the team for their services. The students who participated in the camp were happy for their work and got motivated.

gender sensitization and dental camp

Date: 09.02.2019

Venue: Chakivalasa

Faculty: Dr. Nagarjuna

Organising agency: Gram Panchayat

Number of students attended: 14

SUMMARY:

Gender sensitization refers to the raising sensitization of gender equality concerns. It helps people in examining their personal attitudes and beliefs and questioning the realities of both sexes. So in order to increase the oral health knowledge, an awareness camp was conducted by Anil Neerukonda Institute of Dental Sciences. Oral health education was given. Individuals were examined and oral hygiene instructions were given accordingly. About 90 patients were screened and referred to the hospital for the treatment. There was a good response from the staff and they appreciated the team for their services. The students who participated in the camp were happy for their work and got motivated.

oral health education & dental camp

Date: 15.03.2019

Venue: Sontyam

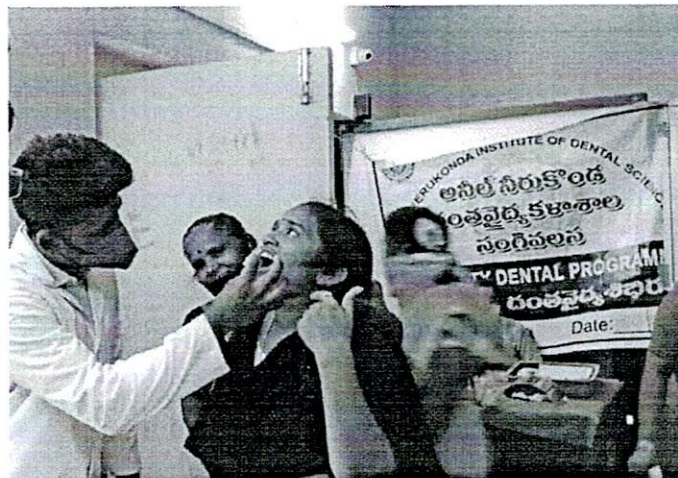

Faculty: Dr. Yaswant, Dr. Srinivas

Organising agency: VITAM engineering college

Number of students attended: 14

SUMMARY:

Many of oral health problems are preventable and we all are well versed with the quote 'prevention is better than cure'. Lack of oral health literacy is the main reason for underutilization of the dental care facilities. So in order to increase the oral health knowledge, an awareness camp was conducted by the Department of Public health Dentistry, Anil Neerukonda Institute of Dental Sciences. Oral health education was given with main focus on brushing techniques. Individuals were examined and oral hygiene instructions were given accordingly. About 190 patients were screened and referred to the hospital for the treatment. There was a good response from the staff and they appreciated the team for their services. The students who participated in the camp were happy for their work and got motivated.

Awareness on tobacco ill effects & dental camp

Date: 23.03.2019

Venue : Duvvada, Visakhapatnam

Faculty: Dr.Nagarjuna

Organising agency: Vignan Engineering college

Number of students attended: 16

SUMMARY:

Smoking can impact your oral health. People who smoke are at a higher risk of developing oral cancer, gum problems, losing teeth, decay on the roots of teeth, and complications after tooth extraction and oral surgery. So in order to create awareness and increase the oral health knowledge, an awareness camp was conducted by the Department of Public health Dentistry, Anil Neerukonda Institute of Dental Sciences. Oral health education was also given. Individuals were examined and oral hygiene instructions were given accordingly. About 90 patients were screened and referred to the college for treatment. There was a good response from the people and they appreciated the team for their services. The students who participated in the camp were happy for their work and got motivated.

importance of healthy environment and dental camp

Date: 23.04.2019

Venue: Krishnapuram

Faculty: Dr.Srinivas

Organising agency: Gram Panchayat

Number of students attended: 14

SUMMARY:

Environmental awareness means exactly what you may think: an **awareness** around the natural environment and the choices that either promote its well-being or cause it more harm. So in order to increase the oral health knowledge, an awareness camp was conducted by the Department of Public health Dentistry, Anil Neerukonda Institute of Dental Sciences. Oral health education was given with main focus on tobacco. Individuals were examined and oral hygiene instructions were given accordingly. About 190 patients were screened and referred to the hospital for the treatment. There was a good response from the villagers and they appreciated the team for their services. The students who participated in the camp were happy for their work and got motivated.

international labour day and dental camp

Date: 01.05.2019

Venue: Reddipalem

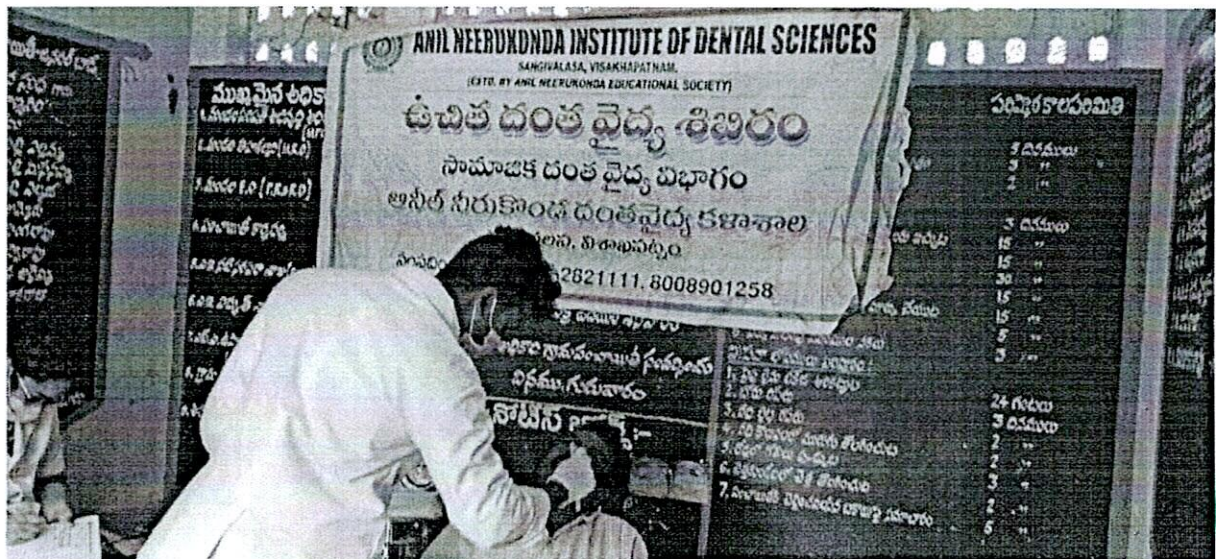

Faculty: Dr.Srinivas Rao, Dr.Yashwant

Organising agency: Village Panchayat

Number of students attended: 15

SUMMARY:

This international holiday is observed on May 1st. It is most commonly associated as a **commemoration of the achievements of the labour movement**. So in order to increase the oral health knowledge, an awareness camp was conducted by the Department of Public health Dentistry, Anil Neerukonda Institute of Dental Sciences. Oral health education was given with main focus on tobacco. Individuals were examined and oral hygiene instructions were given accordingly. About 100 patients were screened and referred to the hospital for the treatment. There was a good response from the villagers and they appreciated the team for their services. awareness on sanitation and dental camp

Date: 04.06.2019

Venue: Narsapuram

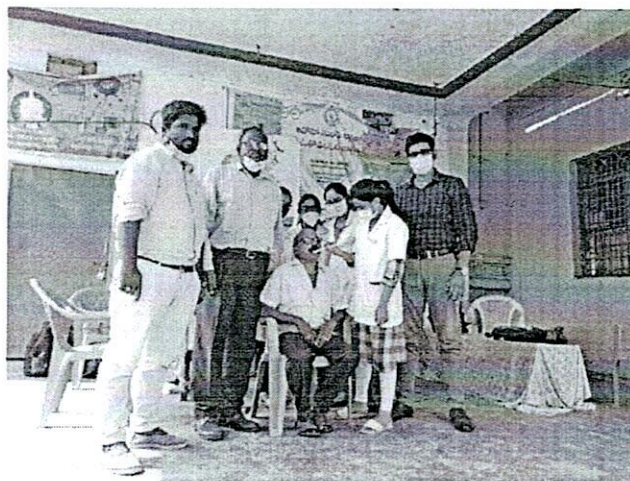

Faculty: Dr.Srinivas Rao, Dr.Srinivas kumar

Organising agency: Gram Panchayat

Number of students attended: 15

SUMMARY:

There is need for increased awareness about sanitation. The responsibility of creating awareness by linking health and hygiene lies with the media and NGOs, apart from government efforts. So in order to increase the oral health knowledge, an awareness camp was conducted by the Department of Public health Dentistry, Anil Neerukonda Institute of Dental Sciences. Oral health education was given with main focus on tobacco. Individuals were examined and oral hygiene instructions were given accordingly. About 100 patients were screened and referred to the hospital for the treatment. There was a good response from the villagers and they appreciated the team for their services. The students who participated in the camp were happy for their work and got motivated.

Awareness on Sexual Violence and dental camp

Date: 20.06.2019

Venue: Bhogapuram

Faculty: Dr.Yashwant, Dr.Srinivas

Organising agency: Gram Panchayat

Number of students attended: 16

SUMMARY:

Sexual violence is a widespread problem. It happens in every community and affects people of all genders and ages. Nearly one in five women and one in 71 men are victims of rape. Sexual violence is defined as any sexual activity where consent is not freely given. So in order to increase the oral health knowledge, an awareness camp was conducted by the Department of Public health Dentistry, Anil Neerukonda Institute of Dental Sciences. Individuals were examined and oral hygiene instructions were given accordingly. About 100 patients were screened and referred to the hospital for the treatment. There was a good response from the villagers and they appreciated the team for their services. The students who participated in the camp were happy for their work and got motivated.
