Village adoption dental screening and treatment camp

Date: 16-12-2020

Faculty: Dr.K.Srinivas Rao

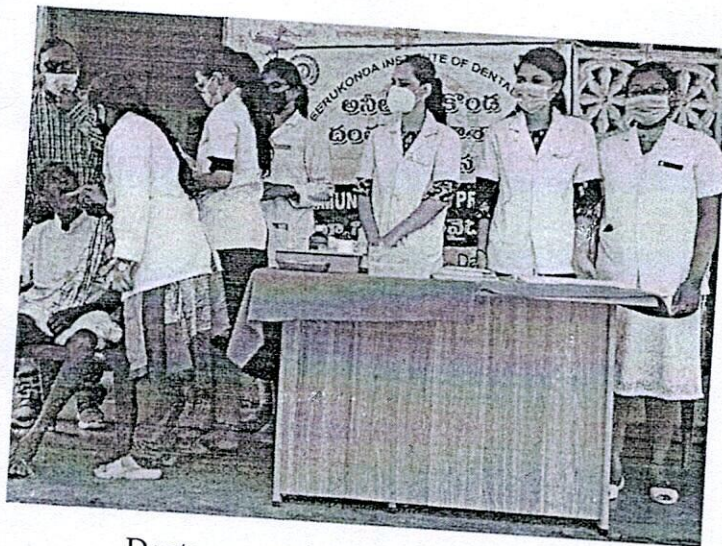

Number of students attended: 15

Venue: Pandrangi village

Organising agency: Gram Panchayath

SUMMARY:

Village adoption to improve the oral health status of the society is an effective mode. It is due responsibility of the sector and very good initiative by the volunteers of the sector. The Department of Public health Dentistry, Anil Neerukonda Institute of Dental Sciences has taken this initiative. Individuals were examined and oral hygiene instructions were given through audio-visual aids. About 57 patients were screened and selective treatment was provided to the required. There was a good response from the villagers and appreciated the team for their services. The students who participated in the camp were happy for their work and got motivated.

School adoption screening and treatment camp

Date: 28-12-2020

Venue: Maddi, Padmanabham

Faculty: Dr.K.Srinivas Rao

Organising agency: Government Z P School

Number of students attended: 14

SUMMARY:

School is a place where children spend their important stages of life. The knowledge gained at this age has a great impact on their behavior and also can be reinforced from time to time. So in this regard, the Department of Public health Dentistry, Anil Neerukonda Institute of Dental Sciences has taken the initiative to sign a memorandum of understanding with the schools nearby to promote oral health. Oral Health education will be given at every visit and oral examination was carried out and oral hygiene instructions were given. About 340 children were screened and selective treatment was provided to the required. The school authorities and parents had appreciated the team. The students who participated in the camp were happy for their services.

Awareness camp on preventive oral health and oral screening camp

Date: 18-01-2021

Venue: Chandaka village

Faculty: Dr.K.Srinivas Rao

Organising agency: Gram Panchayath

Number of students attended: 16

SUMMARY:

Many of oral health problems are preventable and we all are well versed with the quote 'prevention is better than cure'. Lack of oral health literacy is the main reason for underutilization of the dental care facilities. So in order to increase the oral health knowledge, awareness camp was conducted by the Department of Public health Dentistry, Anil Neerukonda Institute of Dental Sciences. Oral health education was given with main focus on prevention of oral diseases. Individuals were examined and oral hygiene instructions were given accordingly. About 90 patients were screened and referred to the hospital for the treatment. There was a good response from the villagers and appreciated the team for their services. The students who participated in the camp were happy for their work and got motivated.

Tobacco ill effects on oral health and screening camp

Date: 04-02-2021

Venue: Nidigattu village

Faculty: Dr.K.Srinivas Rao, Dr.Yashwant

Organising agency: Gram Panchayath

Number of students attended: 16

SUMMARY:

Oral cancer is one of the common causes for death around the world. The most common cause for the oral cancer is tobacco. It can be of smoking or smokeless form. Most of the people get addicted to one of the above. They are not aware of the ill effects caused by these products. In this regard, the Department of Public health Dentistry, Anil Neerukonda Institute of Dental Sciences has taken the initiative to counsel the people. Individuals were examined and counselled the patients who were having the habit. About 110 patients were screened and referred to the hospital for the treatment. Students expressed that they had gained good experience and got good exposure to a number of cases.

Importance of deworming and dental camp

Date: 10.02.2021

Venue : Kapuluppada

Faculty: Dr. Nagarjuna

Organising agency: ZPH School

Number of students attended: 14

SUMMARY:

Many of oral health problems are preventable and we all are well versed with the quote 'prevention is better than cure'. Deworming is important for growth of children. Deworming tablets were given to the school children. Oral health education was given with main focus on awareness on cancer and its relation with tobacco. Individuals were examined and oral hygiene instructions were given accordingly. About 120 patients were screened and referred to the hospital for the treatment. There was a good response from the staff and they appreciated the team for their services. The students who participated in the camp were happy for their work and got motivated.

Awareness camp on Tobacco ill effects and oral screening camp

Date : 20.02.2021

Venue : Mangamaripeta

Faculty: Dr. Yashwant, Dr. Srinivas, Dr. Sivakumar

Organising agency: government ZPH school

Number of students attended: 14

SUMMARY:

Many of oral health problems are preventable and we all are well versed with the quote 'prevention is better than cure'. Lack of oral health literacy is the main reason for underutilization of the dental care facilities. So in order to increase the oral health knowledge, an awareness camp was conducted by the Department of Public health Dentistry, Anil Neerukonda Institute of Dental Sciences. Oral health education was given with main focus on ill effects of tobacco. Individuals were examined and oral hygiene instructions were given accordingly. About 70 patients were screened and referred to the hospital for the treatment. There was a good response from the villagers and they appreciated the team for their services. The students who participated in the camp were happy for their work and got motivated.

Women empowerment and dental camp

Date: 27.03.2021

Venue: SC BC colony, Anandapuram

Faculty: Dr.Nagarjuna

Organising agency: village secretariat

Number of students attended: 17

SUMMARY:

Violence negatively affects women's general well-being and prevents women from fully participating in society. It impacts their families, their community, and the country at large. It has tremendous costs, from greater strains on health care to legal expenses and losses in productivity. To promote this agenda, NSS unit of ANIDS organized a skit on empowerment against violence followed by a dental screening camp in vijnana vihara school in Gudilova. About 150 school children have participated in the camp. The school management was impressed with the program and requested such camps in the future. The participants in the program were inspired and eager to participate in such camps in future.

Dental screening & awareness camp on World Health Day

Date: 07.04.2021

Venue : J.V.Agraharam village

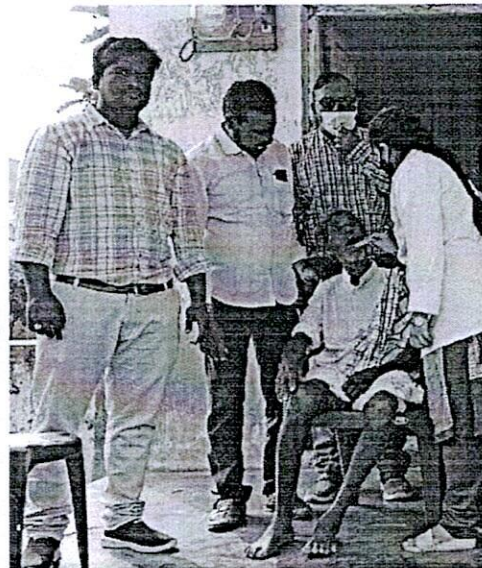

Faculty: Dr.K.Srinivas Rao

Organising agency: MPP school

Number of students attended: 12

SUMMARY:

Cigarettes, smokeless tobacco, and other forms of tobacco cause oral cancer, gum disease and other oral health problems. To educate people about the ill effects of tobacco, an awareness camp was conducted by the Department of Public health Dentistry, Anil Neerukonda Institute of Dental Sciences. Oral health education was given with main focus on ill effects of tobacco. Individuals were examined and oral hygiene instructions were given accordingly. About 80 patients were screened and referred to the hospital for the treatment. There was a good response from the villagers and they appreciated the team for their services. The students who participated in the camp were happy for their work and got motivated.

Oral Health education and dental camp

Date: 04.09.2021

Venue : Kurmannapalem

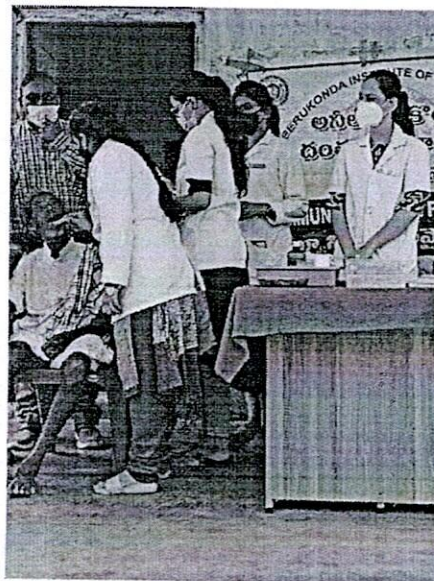

Faculty: Dr.Vineela, Dr.K.Srinivas Rao

Organising agency: Visakhapatnam steel plant

Number of students attended: 15

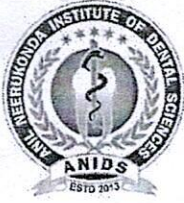

SUMMARY:

Many of oral health problems are preventable and we all are well versed with the quote 'prevention is better than cure'. Lack of oral health literacy is the main reason for underutilization of the dental care facilities. So in order to increase the oral health knowledge, an awareness camp was conducted by the Department of Public health Dentistry, Anil Neerukonda Institute of Dental Sciences. Oral health education was given with main focus on ill effects of tobacco. Individuals were examined and oral hygiene instructions were given accordingly. About 100 patients were screened and referred to the hospital for the treatment. There was a good response from the villagers and they appreciated the team for their services. Environmental hygiene awareness and dental camp

Date:07.09.2021

Venue: Bheemli

Faculty: Dr.Nagarjuna, Dr.Yashwant

Organising agency: Urban boys hostel

Number of students attended: 15

SUMMARY:

This year's theme is about valuing toilets. The campaign draws attention to the fact that toilets – and the sanitation systems that support them – are underfunded, poorly managed or neglected in many parts of the world, with devastating consequences for health, economics and the environment, particularly in the poorest and most marginalized communities. An awareness session was organized by NSS units of ANIDS emphasizing on the importance of proper sanitation was given.

Mega Medical and Dental Camp

Date : 01.10.2021

Venue : Bheemili

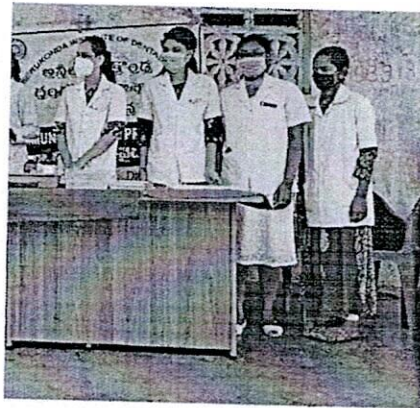

Faculty: Dr.K.Srinivas Rao, Dr.Nagarjuna

Organising agency: KAIROS FOUNDATION

Number of students attended: 14

SUMMARY:

Many of the medical problems and oral health problems are preventable and we all are well versed with the quote 'prevention is better than cure'. Lack of literacy is the main reason for underutilization of the oral and medical health care facilities. So, in order to increase the knowledge about health, an awareness camp was conducted by the Department of Public health Dentistry, Anil Neerukonda Institute of Dental Sciences. Individuals were examined and oral hygiene instructions were given accordingly. About 100 patients were screened and about 40 patients were treated. There was a good response from the villagers and they appreciated the team for their services. The students who participated in the camp were happy for their work and got motivated.

Impact of stress on oral health and dental camp

Date : 08.10.2021

Venue : Pinatadivada

Faculty: Dr.Nagarjuna

Organising agency: Village Secretariat

Number of students attended: 12

SUMMARY:

Stress is the main reason for all the problems. For every health problem, the main risk factor is stress now a days. Stress prevails in every individual from child to old age because of some reason. It is important to create awareness about this to all. Oral health education was given with main focus on stress. Individuals were examined and oral hygiene instructions were given accordingly. About 170 patients were screened and referred to the hospital for the treatment. There was a good response from the villagers and they appreciated the team for their services. The students who participated in the camp were happy for their work and got motivated.

World handwashing day and dental camp

Date: 19.10.2021

Venue: Bheemli

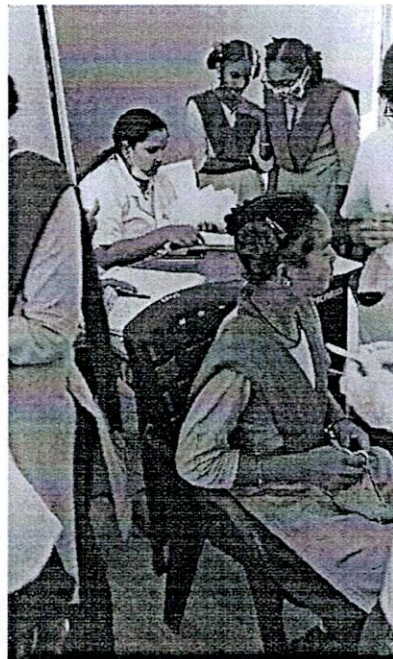

Faculty: Dr. Neeraja

Organising agency: NSS Unit, ANIDS

Number of students attended: 12

SUMMARY:

Improper maintenance of hygiene is the main reason for all the diseases. For this handwashing before eating is important. In this regard to create awareness on this, world handwashing day was celebrated – and the sanitation systems that support them – are underfunded, poorly managed or neglected in many parts of the world, with devastating consequences for health, economics and the environment, particularly in the poorest and most marginalized communities. An awareness session was organized by NSS units of ANIDS emphasizing on the importance of proper sanitation was given.

Diabetes and oral health and dental camp

Date: 28.10.2021

Venue: Kancherapalem

Faculty: Dr. Yashwant

Organising agency: Awakers Trust

Number of students attended: 15

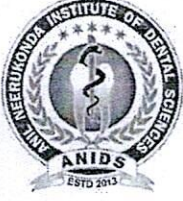

SUMMARY:

Diabetes is the main risk factor for many health problems. Many of oral health problems are preventable and we all are well versed with the quote 'prevention is better than cure'. Lack of oral health literacy is the main reason for underutilization of the dental care facilities. They are considered as the most vulnerable, frustrated, and insecure community of the country. They are also denied general, oral health and psychological assistance. In India, the accessibility to medical and dental facilities for the eunuchs is nearly non-existent. There is every possible chance that this neglected special group of population may have heavy stress and indulge in alcoholism, gutkha-pan chewing and other pernicious habits. These factors may cause many oral health problems especially those related to periodontal health, which can make their lives worse. So in order to increase the oral health knowledge, an mega camp was conducted by Awakers Trust

Awareness Camp and CLEAN INDIA PROGRAM and dental camp

Date: 29.10.2021

Venue: Bheemili

Faculty: Dr.Siva, Dr.Yashwant

Organising agency: NSS unit - ANIDS

Number of students attended: 12

SUMMARY:

Awareness about environmental hygiene is the need of the hour. So to create awareness about this, beach cleaning program was organised at bheemili beach. Many of oral health problems are preventable and we all are well versed with the quote 'prevention is better than cure'. In addition to this oral health education and screening camp were also conducted at the site. There is every possible chance that this neglected special group of population may have heavy stress and indulge in alcoholism, gutkha-pan chewing and other pernicious habits. These factors may cause many oral health problems especially those related to periodontal health, which can make their lives worse. So in order to increase the oral health knowledge, an mega camp was conducted by Awakers Trust

Health education and Mega medical & Dental Camp

Date: 14.11.2021

Venue: Parwada

Faculty: Dr.Yashwant

Organising agency: HANUMAN YUVA FOUNDATION

Number of students attended: 15

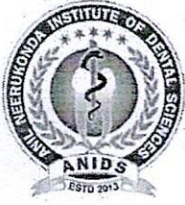

SUMMARY:

Prevention is better than cure is the age old slogan which is followed. Many diseases can be prevented by following healthy life style. In this regard, health education is provided to the people in parwada. Poorly managed or neglected in many parts of the world, with devastating consequences for health, economics and the environment, particularly in the poorest and most marginalized communities. An awareness session was organized by NSS units of ANIDS emphasizing on the importance of proper sanitation was given. About 200 people attended the camp and got benefitted. The team of doctors praised the organisers for the camp.

Elimination of Violence against women / dental screening camp

Date: 25.11.2021

Venue: Gudilova

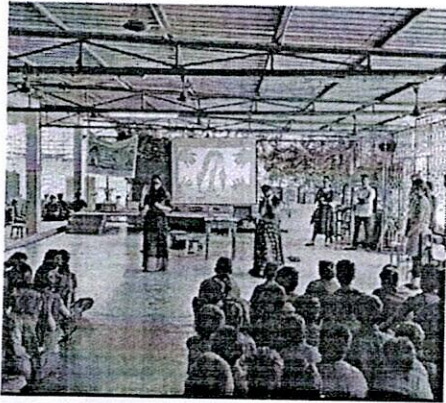

Faculty: Dr. Pratyusha, Dr. Neeraja

Organising agency: Vijana Vihara school

Number of students attended: 12

SUMMARY:

Violence negatively affects women's general well-being and prevents women from fully participating in society. It impacts their families, their community, and the country at large. It has tremendous costs, from greater strains on health care to legal expenses and losses in productivity. To promote this agenda, NSS unit of ANIDS organized a skit on empowerment against violence followed by a dental screening camp in vijana vihara school in gudilova. About 150 school children have participated in the camp. The school management was impressed with the program and requested such camps in the future. The participants in the program were inspired and eager to participate in such camps in future.

Awareness Camp-World Aids Day / dental screening camp

Date: 01.12.2021

Venue: Cross roads, Bheemli

Faculty: Dr. Yaswanth Sai

Organising agency: NSS Unit, ANIDS

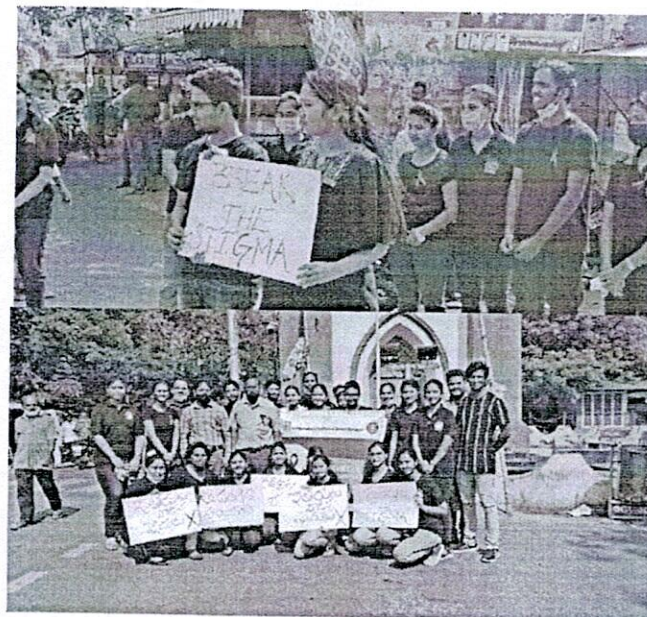

Number of students attended: 14

SUMMARY:

The theme for the 2021 observance is "Ending the HIV Epidemic: Equitable Access, Everyone's Voice"

World AIDS Day was first observed in 1988. Each year, organizations and individuals across the world bring attention to the HIV epidemic, endeavor to increase HIV awareness and knowledge, speak out against HIV stigma

To promote this agenda, NSS unit of ANIDS organized a role-play to raise awareness on AIDS followed by a dental screening camp.

Mega Medical/ dental camp

Date: 06.12.2021

Venue: Primary school, Revidi

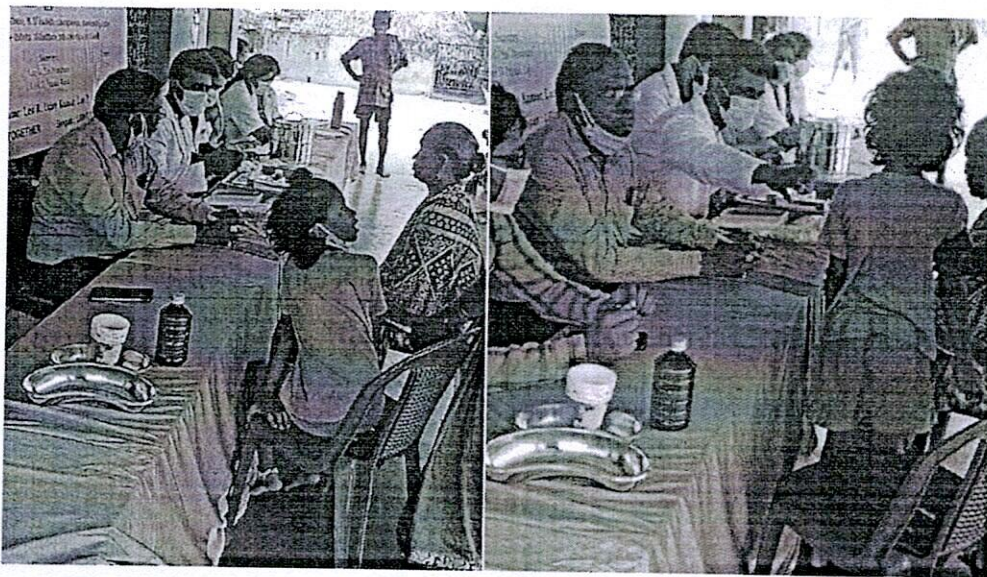

Faculty: Dr. Yashwanth R

Organising agency: Revidi Seva Sangam

Number of students attended: 16

SUMMARY:

Many of oral health problems are preventable and we all are well versed with the quote 'prevention is better than cure'. Lack of oral health literacy is the main reason for underutilization of the dental care facilities. So in order to increase the oral health knowledge, a mega camp was conducted by the Anil Neerukonda Hospital. Oral health education was given. Individuals were examined and oral hygiene instructions were given accordingly. The students who participated in the camp were happy for their work and got motivated.

World Human rights day / dental screening camp

Date: 10.12.2021

Venue: ZP School, Padmanabham

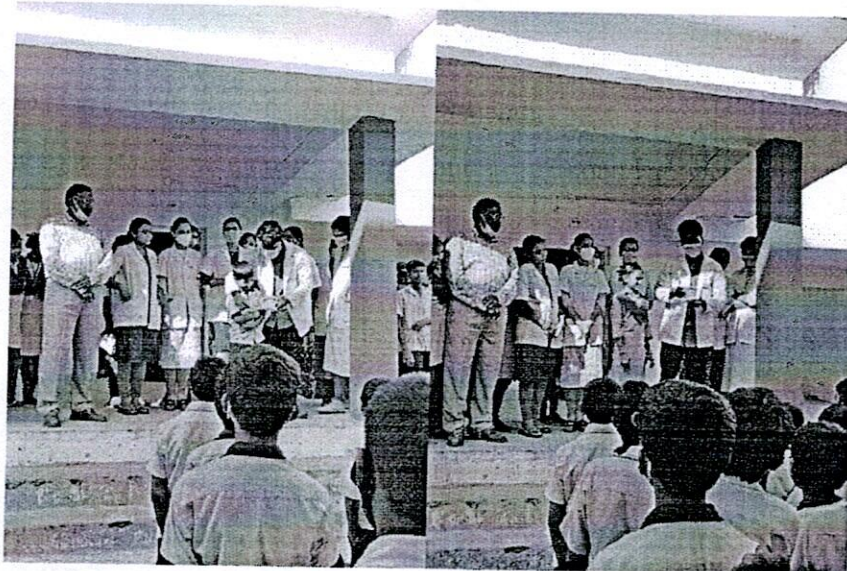

Faculty: Dr. Srinivas K

Organising agency: NSS Unit, ANIDS

Number of students attended: 15

SUMMARY:

Human Rights Day is observed every year on 10 December — the day the United Nations General Assembly adopted, in 1948, the Universal Declaration of Human Rights (UDHR). The UDHR is a milestone document, which proclaims the inalienable rights that everyone is entitled to as a human being - regardless of race, colour, religion, sex, language, political or other opinion, national or social origin, property, birth or other status. To promote this agenda, NSS unit of ANIDS organized a role-play to raise awareness on AIDS followed by a dental screening camp. About 250 children were attended the camp. Participants were motivated for participating in the such camp.
